**Strategic Export Controls: Country
Pivot Report**

12th March 2015 - 21st January
2019

MONTH YEAR

Report Title:UAE 2015

Report Run Date:21st January 2019 10:42:24

Countries:United Arab Emirates

Case Types:All case types

All Cases / Incorporation Cases Only:All cases

Ultimate Destinations:All countries

Licence Statuses:All licence statuses

Reasons for Refusal:All reasons for refusal

Case Summaries:All case summaries

Ratings:All control entries

Introduction

This report covers **export licensing decisions made by Her Majesty's Government (HMG)** between 12th March 2015 and 21st January 2019. Licence applications are submitted to and processed by the Export Control Organisation (ECO), part of the Department for International Trade, through a purpose-built online licensing system called Spire. The ECO issues licences for controlling the export of strategic goods.

Whether or not an export licence is required is determined by four factors, the:

- nature of the goods due to be exported
- destination concerned
- ultimate end use of the goods
- licensability of trade activities of the goods due to be exported

Broadly there are two types of licence, individual and general. Licences can be *standard* or *open*.

Each licence names the goods that can be exported and specifies the destinations to which they can be exported, along with other details and restrictions. *General* licences are pre-published and can be used by all eligible exporters whereas *individual* licences are issued following a successful application and allow only those named on the application to export certain goods. Those exporting under *general* licences must adhere to the terms and conditions of the licence under which they wish to export. Exporters must register with the ECO to use a *general* licence and are subject to regular audits to ensure the licence terms and conditions are being adhered to. Those requiring an *individual* licence must submit an application to the ECO where they wish to make exports not covered by the terms and conditions of a *general* licence.

Generally, *open* licences can be used with fewer restrictions than *standard* licences. *Standard* licences tend to name a specific quantity of specific goods that can be exported to a specific destination whereas *open* licences may include a wider range of goods or destinations and generally do not limit the quantity of goods that can be exported.

A glossary of key terms follows this introduction which explains the various licence types and subtypes that can be used or applied for and how information relating to each licence type and subtype is available within this report.

This report and other sources of information

Each of these quarterly reports (from 2015Q1 published in July 2015) is supplemented by a set of *data tables* in spread sheet format (plus CSV format) and a *statistical commentary* document in addition to this report. The *data tables* provide the same information as presented in this report but in a different format and for **periods back to 1 January 2008**. CSV spread sheets use a non-proprietary format that facilitates the manipulation of the data by a variety of software (not just Microsoft Excel) and provide the same information as available from the *data tables*. These outputs can be found alongside this report under the 'Quarterly reports' heading here:

<https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>

The 'New Report' tool on the "Strategic Export Controls: Reports and Statistics" web page can also be used to download data. The tool offers a variety of filters that can be applied to allow users to download data of specific interest, such as licences which name a certain destination or licences for the shipment of goods with a certain rating. The tool is available here (registration required):

<https://www.exportcontroldb.trade.gov.uk/sdb/fox/sdb/SDBHOME>

Key terminology and data available in this report

Licences types exist for each combination of *open/standard* and *general/individual*, except for *standard general*. The following table summarises the licence types under each of these headings. Each of these licence type has subtypes (more information available under 'Licence types and subtypes').

	Open	Standard
General	OGELs	Not applicable
Individual	OIELs, OITCLs,	SIELs, SITCLs

Key terms

Strategic goods include military goods and a wide range 'dual-use' goods; civilian goods with a military purpose. Goods are assessed against a **consolidated list of goods that require export authorisation**, available here:

<https://www.gov.uk/government/publications/uk-strategic-export-control-lists-the-consolidated-list-of-strategic-military-and-dual-use-items-that-require-export-authorisation>

It is possible for a licence to be for both military and dual-use goods.

Control Entries are the codes assigned to each good on the **consolidated list of goods that require export authorisation (herein 'consolidated list')**. For example, all control entries beginning 'ML' (such as ML1, ML8 etc) are control entries for military goods. The process of assigning control entries to goods is called **Rating**.

In some cases goods can be made subject to control if they do not appear on the **consolidated list**. Goods that the exporter has been told, knows or suspects are, or may be, intended for "WMD Purposes" are given the rating "End-Use". Goods that the exporter has been told, knows or suspects are, or may be, intended for use as components in, or production or test equipment for, military equipment in an embargoed destination; or may be intended for use as parts of military goods illegally obtained from the UK, irrespective of destination, are given the rating "MEND". Both of these "end-use" ratings are also sometimes referred to as "catch all" ratings.

Case summaries are text descriptions used to classify goods on licences. They are standardised descriptions to explain what the goods are without giving away commercially sensitive details about the goods (such as design or intellectual property). Using standardised descriptions also facilitates comparison and analysis. Often extra detail is communicated by using prefixes. For example, a replacement part for a sporting shotgun may be described as "components for sporting shotguns" rather than just "sporting shotgun".

One or more Control Entry can be used to rate more than one good on a licence. Also, one or more Case Summaries can be used to describe a single Control Entry.

Goods are rated as **Military** (ie, they are assigned a Control Entry from the **UK Military List** within the **consolidated list**) or they are rated as being **Non-military**. Non-military goods:

- appear on other lists within the **consolidated list**, such as the **UK Dual-Use List**.
- also include goods refused to destinations that are placed under **sanctions**, such as trade sanctions or an arms embargo. Licences relating to the goods affected by the sanction do not get approved but also do not get rated against the **consolidated list**. They are instead rated with a **sanction code**, such as 'RUS' for Russia and 'IRN' for Iran.

SIELs for Goods covered by Council Regulation 1236/2005 (see 'Licence types and subtypes') concern trade in certain equipment and products which could be used for capital punishment, torture or other cruel, inhuman or degrading treatment or punishment. These are classed as non-military goods but appear separately to the statistics on licences for non-military goods. SIELs for Goods covered by Council Regulation 1236/2005 are therefore not included in the count of non-military goods for other SIEL subtypes. More information on the Regulation is available here: <https://www.gov.uk/controls-on-torture-goods>

As noted, goods can also be rated even if they don't appear on the **consolidated list**.

Licence applications can be **Refused** (for standard individual licences) or **Rejected** (for open individual licences). Licences are refused/rejected for one or more pre-specified reasons. All applications for licences are assessed on a case-by-case basis against the **Consolidated EU and National Arms Export Licensing Criteria** and a decision made on either approval or refusal. Depending on the nature of the goods, other policy aspects might also be considered. For example, if the exported goods are due to be incorporated into another system, equipment or plant, then the items are also assessed against the UK's incorporation factors policy.

Applications for licences can be refused if it is deemed to fail one or more of the Consolidated EU and National Arms Export Licensing Criteria. These 8 criteria include, for example, *Preservation of regional peace, security and stability (criterion 4)* or *Respect for the UK's international obligations and commitments, in particular sanctions adopted by the UN Security Council or the European Union, agreements on non-proliferation and other subjects, as well as other international obligation (criterion 1)*. More information about the criteria is available here:

<https://www.gov.uk/government/publications/consolidated-eu-and-national-arms-export-licensing-criteria>

Licences can also be **Revoked** at any time after being Issued.

Case & goods footnotes are added to certain cases to provide explanation on the end use and/or end user.

Country footnotes are added to destinations with the aim to help the user understand why certain goods may have been approved, refused/rejected or revoked in the period.

Licence types and subtypes

Export Licences

General Licences

Before data are presented per destination, a table summarises the use of **Open General Export Licences (OGELs)** on page 15. OGELs are pre-published licences allowing the export of certain goods to certain destinations. If exporters are eligible to trade under an OGEL then they should register to use that OGEL. Once registered, there is no need for an exporter to submit further applications to trade under the licence they have registered to use.

Some Open General Transshipment licences exist for the **transshipment** of certain goods through the UK en-route from one country to another, providing in all cases that the relevant conditions are met.

There are no Open General licences for the **incorporation** of goods into another product or higher level systems.

Individual Licences

The vast majority of this report presents information (where available) per destination relating to *standard individual* licences and open individual licences (SIELs, OIELs, SITLs, SITCLs and OITCLs). All destinations are presented in this report, and if information regarding certain licence types is not presented for a destination then this is because no decisions have been made on such licences in this period.

Exporters should check to see whether they are eligible to use an *open general* licence before applying for either a *standard individual* licence (eg SIEL, SITCL) or *open individual* licence (eg OIEL, OITCL), whichever is most appropriate.

Open Individual Licences

Open Individual Export Licences (OIELs) are *specific to an individual exporter and cover multiple shipments of specified items to specified destinations and/or, in some cases, specified consignees*. Licences permitting permanent export are generally valid for up to 5 years from the date of issue. However, OIELs covering the export to EU Member States of goods entered on the Military List and Dealer to Dealer OIELs (an OIEL subtype) are generally valid for 3 years.

Other OIELs:

There are several subtypes of OIELs including **Global Project Licences**, as well as **Dealer-to-dealer, Cryptographic, Media and Continental Shelf OIELs**.

Dealer-to-dealer OIELs (or simply Dealer OIELs) authorise UK registered firearms dealers to export certain categories of firearms and ammunition solely to other registered firearms dealers on the European Union only, provided that copies of valid documentation are forwarded to the Home Office at least 2 working days before each shipment.

Cryptographic OIELs authorise the export of specified cryptography hardware or software and the transfer of specified cryptography technology. These licences do not cover hardware, software or technology which includes certain types of cryptanalytic functions.

Media OIELs authorise the export of military helmets, body armour, non-military 4WD civilian vehicles with ballistic protection and specially designed components for any of these items, mainly for the protection of aid agency workers and journalists in areas of conflict. The licence permits these goods to be exported to all destinations on a temporary basis only, i.e. the goods must be returned to the United Kingdom when no longer required.

Continental Shelf OIELs authorise the export of controlled goods to the UK sector of the Continental Shelf for the use only on, or in connection with, offshore installation and associated vessels.

Global Project Licences

Global Project Licences (GPL) are a form of export licence that were introduced by Framework Agreement partners (UK, France, Italy, Sweden, Spain and Germany) to streamline the arrangements for licensing military goods and technologies between them, where these transfers relate to their participation in specific collaborative defence projects. In relation to the collaborative project, each Partner state will, as appropriate, issue their own GPLs to permit transfers of specified goods and technology where these are required for that programme. The GPLs operate on a similar basis to UK Open Individual Export Licences. In the UK, applications for GPLs are assessed against the Consolidated Criteria.

Standard Individual Licences

Standard Individual Export Licences (SIELs) are specific to an individual exporter and generally allow shipments of specified items to a specified consignee up to the quantity specified by the licence.

There are 5 main subtypes; permanent, temporary, incorporation, transshipment and SIELs for Goods covered by Council Regulation 1236/2005.

- **Permanent SIELs** are for items that are for permanent export to a destination. They are generally valid for 2 years from date of issue.
- **Temporary SIELs** are for where the export is temporary, for example for the purposes of demonstration, trial or evaluation, and the licence is generally valid for one year only. The goods must be returned before the licence expires. Temporary SIELs can cover more than one destination and in such cases the licence will be counted once per destination. Therefore users should express caution when summing licence details together across countries.
- **Incorporation SIELs** are for goods that are due to be incorporated ie, installing them into another product or higher level system. For incorporation cases there are two end user types. The 'end user' is the person/organisation incorporating the goods. The 'ultimate end user' is defined as the entity that uses the product or the higher level system into which the exported goods are installed or incorporated.
- **Transshipment SIELs** are needed for the transshipment of certain goods through the UK en-route from one country to another, providing certain conditions are met. This subtype of SIEL is also called a Standard Individual Transshipment Licence (SITL). Most other transshipments (of certain goods through the UK en-route from one country to another) can be made under one of the Open General Transshipment Licences, provided in all cases that the relevant conditions are met. There are no Open Individual licences for transshipments.
- **SIELs for Goods covered by Council Regulation 1236/2005** concern trade in certain equipment and products which could be used for capital punishment, torture or other cruel, inhuman or degrading treatment or punishment. These are classed as non-military goods but appear separately to the statistics on licences for non-military goods. SIELs for Goods covered by Council Regulation 1236/2005 are therefore not included in the count of non-military goods for other SIEL subtypes.

It should be noted that the refusal of an application for an OIEL, amendment to exclude a particular destination(s) and/or item(s), or the revocation of an OIEL, does not prevent a company from applying for a SIEL covering some or all of the items concerned to specified consignees in the relevant destinations. Clearly, however, the factors that led to the original decision would be taken into account in the decision on any such application.

Other Individual Licences

Information on Other Individual licences is not included as part of this report, or as part of the Excel or CSV spread sheets released alongside this report. Please see separate documentation entitled 'Data for Other Licences' published alongside this, or previous, reports.

Trade Control Licences

Trade Control licences are required for those brokering the export of strategic goods. Brokering means buying or selling, or arranging or negotiating transactions for the purchase, sale, or supply, of goods located in one third country for transfer to another. There are Open and Standard Trade Control licences

An **Open Individual Trade Control Licence (OITCL)** is *specific to a named trader and covers involvement in trading of a generally unlimited supply of specific goods between specific source and destination countries and/or specified consignors, consignees and end-users.* OITCLs are generally valid for 5 years.

A **Standard Individual Trade Control Licence (SITCL)** is specific to a named trader and covers involvement in trading of a set quantity of specific goods between a specific source and destination country with a specified consignor, consignee and end-user. SITCLs will normally be valid for 2 years. Upon expiry either by time or because the activity has taken place, the licence ceases to be valid and must be returned to the Export Control Organisation. Once the licence expires, a new application must be applied for if further trades are required. Like Individual Export licences, exporters should check to see whether they are eligible to use an OITCL before applying for a SITCL.

Reporting

Summary Tables

Before more detailed information is presented by destination on SIELs, OIELs, SITCLs and OITCLs, data summarising the number of licences Issued, Refused/Rejected and Revoked for each licence type within the period are presented.

Following this is some detailed information on Dealer OIELs, Cryptographic OIELs, Media OIELs, Continental Shelf OIELs and Global Project Licences - as generally there are not many of these per quarter so the information is best summarised for all destinations together in one table. Processing statistics are reported, similar to those presented per destination (see below). A table showing registrations, suspensions and de-registrations for the use of OGELs immediately precedes detailed information per destination.

Information Per Destination

Information for each destination follows the same pattern. The minimum information provided for each destination is processing statistics. Where no such licences decisions were made in the period, there is simply no information presented for such cases.

Processing statistics

The time calculated is the initial processing time, ie, the time elapsed from when the application is first received to when it is closed. All closed cases are counted, including those where the licence is issued or refused/rejected, or where the application is stopped or withdrawn, or where there was No Licence Required (NLR) decision made on the licence. Revocations apply to existing licences only, so are not counted. Time spent by the ECO waiting for documents from applicants or any time where the ECO are waiting for the applicant to respond to a request for further information is excluded. Time taken to make any amendments post-decision is not counted. For more information on how processing time is calculated, please consult the Quality and Methodology Report on the Strategic Export Controls licensing statistics web page: <https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>.

Separately for SIELs, SITCLs, OIELs and OITCLs the following processing statistics are presented per destination:

- Median processing time
- % and number of licences completed in 20 and 60 working days. For SIELs there are government targets to process 70% of applications within 20 working days and 99% within 60 working days. For OIELs and OITCLs there are government targets to process 60% of applications within 60 working days.

Licensing statistics

The information within the report covers those licences Issued, Refused/Rejected or Revoked within the period. It does not include information where applications were not fully processed, eg stopped or withdrawn, information on goods where there was No Licence Required (NLR), or certain changes to an existing licence - such as re-opening an application to make changes such as extensions to licences, removing good/s (although this is not done for OIELs), removing country/countries, or amending applicant errors.

If goods / countries are added to an application and subsequently end up on a licence they will be reported as a new issue for that period. The existing items will not be re-reported. The same applies for items removed from an application on an amendment, except in this case it will be reported as revoked.

In a small number of cases there may be a subsequent change of status during the same period. There are two main reasons for such changes: a licence issued during the period may have been issued then subsequently revoked in the same period, for example because of the imposition of trade sanctions or an arms embargo; or a decision during the period to refuse a licence might be overturned because the applicant later appealed successfully and the licence was issued in a later period. These cases are flagged in this report as Rv and A respectively.

For each destination and for each of Issued, Refused and Revoked the following is data is presented in this report, where available, for each **SIEL** subtype (note: information on SITLs can be found under the heading 'SIELs - Transshipment'):

- A count of the number of licences on which goods were Issued, Refused or Revoked categorised by the type of goods; Military, Non-military or Both Military and Non-military (see 'Key Terms'). Examples of when a licence may be for both military and non-military goods could be where the goods are military body armour and civilian body armour, or where bomb detection goods are being sold for use by the military and for civilian use such as at airports. However, the military and non-military goods will not necessarily be of the same type.
- A count of the number of licences on which goods were Issued, Refused or Revoked per Control Entry. Control Entries are presented per category (Military, Non-military or Both Military and Non-military) based on the licence they relate to. The number given is the number of licences on which a Control Entry was used. Please note that more than one Control Entry can apply to goods on an individual licence and each Control Entry is counted only once per individual licence (regardless of the number of goods that have been rated with that Control Entry).
- Data for Issued SIELs includes the value of the goods in each category. However, note that goods covered by issued SITLs merely pass through the UK and it would therefore be misleading to compare the 'value' for these licences in the report with the value of items originating in the UK.
- Case summaries for each of Issued, Refused and Revoked broken down by category (Mil/Non-mil/Both), listed below the appropriate Control Entry table in which they feature. Case summaries for small arms covered by SIELs issued in the period give the number of units in parentheses. If the number of licences using the case summary in the period is more than one then this is also detailed in parentheses (eg "2 licences"). Items that were allowed for Temporary export are indicated by a "T" preceding the description. Items that were originally allowed for Temporary export but then converted to allow Permanent export are indicated by a "T(P)". Note that more than one Case Summary can apply to a single Control Entry. Note that more than one Case Summary can apply to a single Control Entry.
- The ultimate destination/s for goods that are being incorporated.
- For refusals, the number of times each of the 8 Consolidated EU and National Arms Export Licensing Criteria are used to refuse licence applications for the destination is provided.

The Control Entries supplied are less detailed than those listed in the **consolidated list of goods that require export authorisation**. For example, we report ML1 but there are more specific codes such as ML1a, ML1b, ML1c and ML1d. Here is an example to explain how we would count the number of licences containing goods rated ML1:

Issued licences for a given destination	Control Entries applied to goods on licence
Licence 1	ML1a, ML1a, ML1b, ML1c
Licence 2	ML1a, ML2a
Licence 3	ML1a
Licence 4	ML1c
Licence 5	ML2a
<i>Total number of licences containing goods rated ML1</i>	4

In the example the number of licences containing goods rated ML1 is 4 because the more detailed codes (eg ML1a, ML1b etc) are treated as though they are the broader code ML1. Also, each Control Entry is counted a maximum of once per licence, so licence 1, 2, 3 and 4 each have a count of 1 for ML1.

The data on refused SIEL applications does not include those refused during this period following an appeal against an earlier refusal. The SIELs data also does not cover goods that were removed from an application before a licence was issued, applications that were withdrawn or stopped before a decision was reached, or applications where it was determined that no licence was required or that the goods could be exported to the destination concerned under an Open General Export Licence (OGEL).

In the case of SIELs refused or revoked, only the rating of the goods is provided.

Values are shown to the nearest pound. It should be noted that the actual value of exports made under the licences is likely to be less than shown because some of these licences will not be used to make all of the exports

authorised and others will not be used at all. In addition, some items are exported only temporarily and are later returned to the UK.

In some cases SIELs may be issued identifying more than one destination. This normally arises where a licence is issued for the temporary export of items for exhibition or demonstration in more than one destination. Details of these licences are included in the information for each relevant destination. This means that the total number of SIELs issued is lower than the sum of all SIELs issued shown across all the destination pages.

For each destination and for each of Issued, Refused and Revoked the following data is presented in this report, where available, for each OIEL subtype:

- A case summary description of the goods covered by each OIEL, with the items that were allowed for temporary export indicated by a "T" preceding the description, for Issued, Rejected and Revoked licences.

Case summaries are provided for all licences issued in the period or where the coverage of an existing licence was amended during the period by the inclusion or reinstatement of this destination or by the addition of goods. Case summaries are provided for licences fully revoked, refused in full or whose coverage was amended during the period by the removal of items and/or destinations. The destination coverage of an OIEL may be amended for a variety of reasons, but mainly in the light of recommendations received from advisory government departments. Sometimes amendments follow the imposition of an arms embargo, but they may also reflect general concerns about the destination or a relevant change in circumstances there. A decision to exclude a particular country from the coverage of an OIEL does not mean that country is permanently excluded. Where the concerns that led to the original decision are no longer relevant, it might be decided to reinstate that destination.

The OIELs data does not cover applications from which specific goods or destinations were removed before an OIEL was issued, or applications withdrawn before a decision was reached, it was determined that no licence was required or that the items could be exported to the destination concerned under an OGEL.

The information does not cover OIELs whose period of validity was extended temporarily during the period pending a decision on an application for a new OIEL. Such cases amount to a temporary extension of an OIEL granted in an earlier period. The decision on the new application will be covered in this or a future report, depending on the timing of the decision. As OIELs cover multiple shipments of specified goods to specified destinations or specified consignees, exporters holding OIELs are not asked to provide details of the value of goods they propose to ship under an OIEL and it is therefore not possible to provide information on the total value of OIELs issued.

As well as the data presented on SIELs and OIELS, data is presented on **SITCLs and OITCLs:**

- The number of SITCLs or OITCLs (presented separately) Issued, Refused (for SITCLs)/Rejected (for OITCLs) and Revoked in the period

Overall Licensing Statistics

	All licence applications	Issued	Refused/ Rejected	Revoked
SIELs	1697	1627	70	0
- Permanent Standard	1449	1380	69	0
- Temporary Standard	199	199	0	0
- Transshipment	1	0	1	0
- Incorporation	48	48	0	0
- For goods covered by EC Reg 1236/2005 (Permanent or Temporary)	0	0	0	0
SITCLs	14	14	0	0
OIELs	114	99	15	0
- Standard	114	99	15	0
- Dealer-to-dealer	0	0	0	0
- Cryptographic	0	0	0	0
- Media	0	0	0	0
- Continental Shelf	0	0	0	0
Global Project Licences	8	8	0	0
OITCLs	10	9	1	0

Table notes for licensing statistics table:

SIEL and OIEL sub-types are mutually exclusive. SIEL Transhipments and Incorporations are permanent, but counted separately to Standard Permanent and Standard Temporary licences. Counts of licence applications Issued, Refused/Rejected and Revoked count the decisions made during the period on the licence, whenever the case has been closed or re-opened then re-closed.

Overall Processing Statistics

Processing statistics covering the period 12th March 2015 to 21st January 2019

	Applications completed in 20 working days	% applications completed in 20 working days	Applications completed in 60 working days	% applications completed in 60 working days	Median processing time
SIELs	1907	78	2403	98	13 days
- Permanent Standard	1684	79	2102	98	13 days
- Temporary Standard	179	77	230	99	15 days
- Transhipment	3	75	4	100	9 days
- Incorporation	41	60	67	99	15 days
- For goods covered by EC Reg 1236/2005 (Permanent or Temporary)	n/a	n/a	n/a	n/a	n/a
SITCLs	23	74	31	100	15 days
OIELs	24	17	47	33	86 days
- Standard	24	17	47	33	86 days
- Dealer-to-dealer	n/a	n/a	n/a	n/a	n/a
- Cryptographic	n/a	n/a	n/a	n/a	n/a
- Media	n/a	n/a	n/a	n/a	n/a
- Continental Shelf	n/a	n/a	n/a	n/a	n/a
Global Project Licences	0	0	0	0	635 days
OITCLs	4	24	11	65	42 days

Open General Export Licences (OGLs)

OGLs can be used to export certain goods to certain destinations providing the terms and conditions of the OGL are met. See further information on military goods OGLs (<https://www.gov.uk/military-goods-ogels>) and dual-use goods OGLs (<https://www.gov.uk/dual-use-open-general-export-licences-explained>).

OGL Name	Registrations in this period	Suspensions in this period	Deregistrations in this period
EU GEA 001 (EU001)	625	2	12
EU GEA 002 (EU002) - exports of certain dual-use items to certain destinations	76	0	3
EU GEA 003 (EU003) - export after repair/replacement	57	0	1
EU GEA 004 (EU004) - temporary export for exhibition or fair	49	0	2

United Arab Emirates

Processing Statistics (excluding amendments)

Median processing time SIELs	13 days
% and number of SIELs completed in 20 working days	78% (1907)
% and number of SIELs completed in 60 working days	98% (2403)
% [as a % of all SIEL cases processed] and number of SIELs refused	3% (70)

Median processing time SITCLs	15 days
% and number of SITCLs completed in 20 working days	74% (23)
% and number of SITCLs completed in 60 working days	100% (31)
% [as a % of all SITCL cases processed] and number of SITCLs refused	0% (0)

Median processing time OIELs	86 days
% and number of OIELs completed in 20 working days	17% (24)
% and number of OIELs completed in 60 working days	33% (47)
% [as a % of all OIELs cases processed] and number of OIELs refused	11% (15)

Median processing time OITCLs	42 days
% and number of OITCLs completed in 20 working days	24% (4)
% and number of OITCLs completed in 60 working days	65% (11)
% [as a % of all OITCLs cases processed] and number of OITCLs refused	6% (1)

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	771	£586,789,796
Non-military	754	£151,966,897
Both Military and Non-military	54	£19,809,855
Total	1579	£758,566,548

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	110	£25,916,180
ML2	16	£8,806,790
ML3	28	£1,265,769

ML4	44	£8,375,380
ML5	51	£21,552,384
ML6	148	£156,016,033
ML7	14	£9,503,445
ML8	1	£1,499,000
ML9	16	£37,009,979
ML10	245	£243,319,334
ML11	122	£44,266,810
ML13	23	£13,819,020
ML14	14	£2,995,056
ML15	32	£5,640,706
ML16	1	£2,374
ML17	8	£1,124,645
ML18	13	£294,457
ML19	3	£1,420,000
ML21	33	£2,215,076
ML22	30	£1,131,039
PL5001	6	£476,278
PL5017	34	£140,040

- accessories for military guidance/navigation equipment [See footnote 109].
- accessories for munitions/ordnance detection/disposal equipment.
- accessories for rangefinding equipment [See footnote 109].
- accessories for small arms training equipment.
- T aerial target equipment [See footnote 240].
- aircraft military communications equipment (27 licences) [See footnotes 185, 245, 381].
- all-wheel drive vehicles with ballistic protection (2 licences).
- T anti-armour ammunition [See footnote 335].
- anti-riot/ballistic shields (6 licences) [See footnotes 256, 257].
- T armoured plate [See footnote 398].
- T artillery [See footnote 181].
- assault rifles (1).
- T assault rifles (1).
- assault rifles (6) [See footnote 1].
- assault rifles (7) [See footnote 4].
- assault rifles (10) (4 licences) [See footnote 334].
- assault rifles (15) [See footnote 12].
- assault rifles (25).
- assault rifles (40) (2 licences) [See footnote 300].
- T assault rifles (74).
- assault rifles (700) [See footnote 69].
- ballistic test equipment (3 licences).
- blank/inert ammunition (4 licences).
- body armour (14 licences) [See footnotes 258, 328, 338, 343, 344, 69].
- T body armour (3 licences) [See footnotes 166, 398].
- bomb suits [See footnotes 132, 133].
- combat shotguns [See footnote 69].
- T command communications control and intelligence software (2 licences) [See footnotes 212, 230].
- T components for aerial target equipment [See footnote 240].
- components for aircraft cannons (4 licences) [See footnote 223].
- components for aircraft military communications equipment.
- T components for aircraft military communications equipment (2 licences) [See footnotes 119, 120].
- components for all-wheel drive vehicles with ballistic protection (2 licences).
- components for artillery (2 licences).
- T components for artillery [See footnote 181].
- components for artillery ammunition.
- components for assault rifles (13 licences) [See footnotes 1, 107, 12, 3, 300, 334, 4, 69].
- T components for assault rifles [See footnote 398].
- components for ballistic test equipment (3 licences).

- components for body armour (16 licences) [See footnotes 132, 133, 258, 295, 323, 328, 338, 343, 69].
- T components for body armour (3 licences) [See footnotes 166, 398].
- components for combat aircraft (30 licences) [See footnotes 217, 242, 246, 265, 280, 331].
- components for combat helicopters (6 licences) [See footnotes 193, 21, 219].
- components for combat naval vessels.
- components for constructions for ballistic protection of military systems.
- components for CS hand grenades.
- components for decoying/countermeasure equipment (2 licences) [See footnote 219].
- components for electronic warfare equipment (2 licences) [See footnote 65].
- T components for electronic warfare equipment [See footnote 307].
- components for ground vehicle military communications equipment.
- components for gun mountings (3 licences).
- components for gun silencers.
- components for hand grenades.
- components for machine guns (9 licences) [See footnotes 3, 300].
- components for military aero-engines (29 licences) [See footnote 401].
- T components for military aero-engines.
- components for military aircraft head-up/down displays (8 licences) [See footnotes 219, 287, 308].
- T components for military aircraft head-up/down displays.
- components for military auxiliary/support vessels [See footnote 342].
- T components for military auxiliary/support vessels [See footnote 32].
- components for military combat vehicles (47 licences) [See footnotes 110, 251, 262, 309, 327].
- components for military communications equipment (28 licences) [See footnotes 186, 234, 312, 353, 354, 386].
- T components for military communications equipment (2 licences).
- components for military containers.
- components for military electronic equipment (8 licences) [See footnotes 191, 302, 342, 383, 46].
- T components for military electronic equipment (3 licences).
- components for military equipment for initiating explosives (6 licences) [See footnote 145].
- components for military guidance/navigation equipment (7 licences) [See footnote 109].
- T components for military guidance/navigation equipment.
- components for military helicopters (21 licences) [See footnotes 190, 196, 2, 404].
- components for military image intensifier equipment [See footnote 219].
- components for military improvised explosive device decoying/detection/disposal/jamming equipment (6 licences) [See footnote 146].
- T components for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 151].
- components for military infrared/thermal imaging equipment [See footnote 109].
- components for military patrol/assault craft (3 licences).
- components for military radars (7 licences).
- T components for military sonars [See footnote 32].
- components for military support aircraft (36 licences) [See footnotes 188, 192, 244, 84].
- components for military support vehicles (16 licences) [See footnote 17].
- components for military training aircraft (59 licences) [See footnotes 187, 330, 382].
- components for military training equipment [See footnote 356].
- components for mortars (2 licences) [See footnotes 290, 296].
- components for munitions/ordnance detection/disposal equipment (5 licences).
- T components for munitions/ordnance detection/disposal equipment [See footnote 154].
- components for naval communications equipment (2 licences) [See footnote 384].
- components for NBC detection equipment (4 licences) [See footnote 76].
- components for NBC protective/defensive equipment (3 licences) [See footnote 291].
- T components for NBC protective/defensive equipment.
- components for nuclear radiation detection equipment.
- components for pistols (4 licences) [See footnotes 3, 351, 69].
- components for rangefinding equipment [See footnote 109].
- components for rifles (2 licences) [See footnotes 351, 69].
- components for small arms ammunition (3 licences).
- T components for small arms ammunition [See footnote 183].
- components for small arms training equipment (2 licences) [See footnote 104].
- components for sniper rifles (10 licences) [See footnotes 108, 204, 33, 74].
- T components for sniper rifles (2 licences) [See footnotes 335, 403].
- components for sporting guns (6 licences).
- components for tanks (2 licences) [See footnote 286].
- components for targeting equipment (4 licences) [See footnotes 219, 302].
- components for unmanned air vehicles.
- components for weapon control equipment (4 licences) [See footnotes 189, 355].

components for weapon mountings [See footnote 238].
 constructions for ballistic protection of military systems (2 licences).
 crowd control ammunition (5 licences).
 CS hand grenades.
 decoying/countermeasure equipment (2 licences) [See footnotes 219, 302].
 demolition charges/devices (2 licences).
 electronic warfare equipment (2 licences).
 T electronic warfare equipment.
 T equipment for the development of combat helicopters (4 licences) [See footnote 113].
 equipment for the development of military combat vehicles [See footnote 112].
 equipment for the operation of military aircraft in confined areas (3 licences).
 equipment for the production of military combat vehicles (6 licences) [See footnotes 27, 294, 299, 301].
 equipment for the production of military support vehicles (2 licences).
 equipment for the production of mortars [See footnote 296].
 equipment for the use of aircraft military communications equipment.
 equipment for the use of aircraft missile protection systems (2 licences) [See footnote 195].
 equipment for the use of artillery.
 T equipment for the use of artillery (2 licences).
 equipment for the use of assault rifles (2 licences).
 equipment for the use of attack alerting/warning equipment.
 equipment for the use of ballistic test equipment.
 equipment for the use of bombs [See footnote 315].
 equipment for the use of decoying/countermeasure equipment (2 licences) [See footnote 195].
 equipment for the use of electronic warfare equipment.
 equipment for the use of machine guns.
 equipment for the use of military aircraft head-up/down displays.
 equipment for the use of military combat vehicles [See footnote 20].
 equipment for the use of military electronic equipment [See footnote 302].
 T equipment for the use of military electronic equipment.
 equipment for the use of military equipment for initiating explosives (4 licences) [See footnote 145].
 equipment for the use of military guidance/navigation equipment [See footnote 109].
 T equipment for the use of naval communications equipment.
 equipment for the use of NBC protective/defensive equipment (2 licences).
 equipment for the use of rangefinding equipment [See footnote 109].
 equipment for the use of sniper rifles.
 equipment for the use of targeting equipment (3 licences) [See footnote 194].
 T equipment for the use of targeting equipment (3 licences) [See footnote 113].
 T equipment for the use of weapon night sights (15 licences) [See footnotes 22, 26, 29, 30, 321, 34, 36, 38, 41, 42, 44, 50, 55].
 T equipment for the use of weapon sights (3 licences) [See footnote 113].
 explosive charges/devices (3 licences).
 explosives.
 flash suppressers (2 licences) [See footnote 4].
 flash suppressors [See footnote 300].
 general military aircraft components (8 licences).
 general military vehicle components (58 licences) [See footnotes 105, 148, 200, 235, 236, 252, 262, 263, 288, 292, 297, 298].
 T general military vehicle components (6 licences) [See footnote 247].
 general naval vessel components.
 T general naval vessel components [See footnote 152].
 goods treated for signature suppression for military use (4 licences) [See footnote 65].
 grenade launchers [See footnote 3].
 T grenade launchers.
 ground vehicle military communications equipment (2 licences).
 gun mountings (16 licences) [See footnotes 1, 108, 293, 4, 74].
 T gun mountings (2 licences) [See footnote 335].
 gun silencers (28 licences) [See footnotes 1, 108, 117, 157, 281, 3, 300, 320, 334, 4, 74].
 T gun silencers (3 licences) [See footnotes 216, 335, 403].
 hand grenades (3 licences).
 high power RF weapon systems [See footnote 203].
 T high power RF weapon systems (2 licences) [See footnote 37].
 illuminators.
 inert signalling devices.
 launching/handling/control equipment for munitions.
 machine guns (1) (2 licences) [See footnote 300].
 machine guns (5) [See footnote 157].

machine guns (8) [See footnote 3].
 T machine guns (8).
 machine guns (25).
 machine guns (30).
 military aircraft ground equipment (5 licences).
 T military aircraft head-up/down displays (2 licences) [See footnote 113].
 military aircrew life support equipment.
 military aircrew safety equipment (3 licences) [See footnote 219].
 T military aircrew safety equipment (3 licences) [See footnote 113].
 military auxiliary/support vessels [See footnote 342].
 T military auxiliary/support vessels [See footnote 32].
 T military cameras/photographic equipment (4 licences) [See footnotes 113, 119, 120].
 military combat vehicles (3 licences) [See footnote 10].
 military communications equipment (18 licences) [See footnotes 234, 312, 313, 342, 353, 354, 81].
 T military communications equipment (5 licences) [See footnote 259].
 military containers (3 licences) [See footnote 342].
 military electronic equipment (10 licences) [See footnotes 342, 343, 383].
 T military electronic equipment (3 licences) [See footnote 152].
 military equipment for initiating explosives (8 licences) [See footnote 145].
 T military equipment for initiating explosives [See footnote 151].
 military guidance/navigation equipment (18 licences) [See footnotes 103, 109, 201, 219, 302, 332, 70].
 T military guidance/navigation equipment (18 licences) [See footnotes 213, 22, 259, 26, 29, 30, 34, 36, 38, 409, 41, 42, 44, 50, 55].
 military helmets (10 licences) [See footnotes 132, 133, 323, 328, 69].
 T military helmets (3 licences) [See footnotes 166, 398].
 military image intensifier equipment (4 licences) [See footnotes 219, 302].
 T military image intensifier equipment (19 licences) [See footnotes 113, 213, 22, 26, 29, 30, 34, 36, 38, 409, 41, 42, 44, 50, 55].
 military image recording/processing equipment.
 military improvised explosive device decoying/detection/disposal/jamming equipment (4 licences).
 T military improvised explosive device decoying/detection/disposal/jamming equipment (2 licences) [See footnote 151].
 military infrared/thermal imaging equipment (3 licences) [See footnote 109].
 T military infrared/thermal imaging equipment (18 licences) [See footnotes 213, 22, 26, 29, 30, 321, 34, 36, 409, 41, 42, 44, 50, 55].
 military parachutes and equipment (2 licences).
 military patrol/assault craft (2 licences).
 T military patrol/assault craft [See footnote 9].
 military scenario simulation equipment (2 licences).
 military support aircraft (3 licences).
 military support vehicles (3 licences).
 military trailers (3 licences).
 military training equipment (4 licences).
 T military training equipment (4 licences) [See footnotes 240, 390].
 mortars (2 licences) [See footnotes 290, 296].
 munitions/ordnance detection/disposal equipment (7 licences) [See footnote 146].
 naval communications equipment (2 licences).
 T naval communications equipment (2 licences) [See footnote 32].
 naval electrical/electronic equipment (2 licences).
 NBC detection equipment (2 licences) [See footnote 76].
 NBC protective/defensive equipment (6 licences) [See footnotes 15, 291, 45].
 periscopes (2 licences).
 T periscopes.
 pistols (6) [See footnote 3].
 T pistols (13).
 pistols (30) [See footnote 69].
 projectile launchers.
 T projectile launchers (2 licences) [See footnotes 166, 398].
 rangefinding equipment (4 licences) [See footnote 109].
 T rangefinding equipment (17 licences) [See footnotes 22, 26, 29, 30, 335, 34, 36, 38, 409, 41, 42, 44, 50, 55].
 rifles (3).
 rifles (5) [See footnote 3].
 rifles (9).
 rifles (300) [See footnote 69].
 signalling devices (2 licences).

small arms ammunition (12 licences) [See footnotes 123, 157, 233, 385, 69].

T small arms ammunition [See footnote 335].

small arms training equipment (3 licences) [See footnote 104].

smoke canisters (3 licences).

T smooth-bore weapons (4).

T sniper rifles (1) (2 licences) [See footnotes 335, 403].

sniper rifles (2).

sniper rifles (3) [See footnote 74].

T sniper rifles (3).

T sniper rifles (4) [See footnote 216].

sniper rifles (8).

sniper rifles (10).

sniper rifles (11).

sniper rifles (130) [See footnote 108].

software enabling equipment to function as equipment for the use of military communications equipment.

T software enabling equipment to function as military guidance/navigation equipment.

T software for artillery.

T software for combat helicopters (2 licences) [See footnote 113].

software for electronic warfare equipment.

T software for equipment for the development of combat helicopters (2 licences).

software for equipment for the use of aircraft missile protection systems [See footnote 195].

software for equipment for the use of NBC protective/defensive equipment.

software for military auxiliary/support vessels (2 licences).

software for military combat vehicles (2 licences) [See footnote 271].

software for military communications equipment (9 licences) [See footnotes 312, 353, 354].

software for military guidance/navigation equipment.

software for military image recording/processing equipment.

software for military sonars [See footnote 342].

T software for military sonars [See footnote 32].

software for military training equipment.

T software for military training equipment [See footnote 390].

software for NBC detection equipment (2 licences).

software for optimising equipment design.

software for rangefinding equipment [See footnote 109].

software for targeting equipment.

sporting guns (1) (4 licences) [See footnotes 161, 320].

T sporting guns (1).

sporting guns (2).

sporting guns (3) (2 licences).

sporting guns (4).

T sporting guns (4).

sporting guns (5) [See footnote 385].

sporting guns (6) (2 licences) [See footnote 281].

sporting guns (7).

sporting guns (11).

sporting guns (14).

sporting guns (15) [See footnote 3].

sporting guns (16).

sporting guns (47).

sporting shotgun ammunition (2 licences) [See footnote 69].

sporting shotguns (1).

sporting shotguns (2) (2 licences).

sporting shotguns (10).

sporting shotguns (15).

T surface launched rockets.

targeting equipment (6 licences) [See footnotes 219, 302].

T targeting equipment (2 licences) [See footnote 392].

T technology for artillery.

technology for assault rifles (4 licences) [See footnotes 1, 300, 4].

technology for body armour [See footnote 343].

technology for combat aircraft (2 licences).

T technology for combat helicopters (3 licences) [See footnote 113].

technology for electronic warfare equipment.

technology for equipment for the use of artillery.

technology for general military vehicle components.

technology for launching/handling/control equipment for munitions [See footnote 380].

- technology for machine guns (3 licences) [See footnote 300].
 technology for military combat vehicles.
 technology for military communications equipment (7 licences) [See footnotes 312, 353, 354].
 technology for military guidance/navigation equipment.
 technology for military image recording/processing equipment.
 technology for military infrared/thermal imaging equipment [See footnote 109].
 technology for military support vehicles.
 technology for naval engines.
 technology for NBC detection equipment (2 licences).
 technology for periscopes.
 technology for rangefinding equipment [See footnote 109].
 technology for sniper rifles (2 licences) [See footnotes 108, 74].
 T technology for sniper rifles [See footnote 335].
 technology for weapon sights (2 licences).
 training anti-aircraft ammunition.
 training devices containing military pyrotechnic materials.
 training hand grenades (3 licences) [See footnotes 339, 340, 341].
 training small arms ammunition.
 turrets (7 licences) [See footnotes 122, 197, 289, 89].
 unfinished products for military support aircraft.
 T unmanned air vehicles (2 licences) [See footnotes 166, 394].
 wall/door breaching projectiles/ammunition.
 weapon cleaning equipment (10 licences) [See footnotes 1, 108, 12, 4, 74].
 weapon control equipment (3 licences) [See footnote 219].
 weapon night sights (3 licences) [See footnote 111].
 T weapon night sights (21 licences) [See footnotes 119, 120, 213, 22, 26, 29, 30, 321, 34, 36, 38, 409, 41, 42, 44, 50, 55].
 weapon sight mounts (7 licences) [See footnotes 1, 108, 74].
 T weapon sight mounts (14 licences) [See footnotes 216, 22, 26, 29, 30, 34, 36, 38, 41, 42, 44, 50, 55].
 weapon sights (37 licences) [See footnotes 1, 100, 108, 12, 128, 129, 14, 147, 161, 3, 325, 371, 385, 4, 69, 74].
 T weapon sights (21 licences) [See footnotes 213, 216, 22, 26, 29, 30, 321, 335, 34, 36, 38, 403, 409, 41, 42, 44, 50, 55].

accessories for gas detection equipment.
 accessories for materials analysis equipment.
 accessories for pumps (2 licences).
 accessories for temperature measurement equipment.
 accessories for welding equipment.
 acoustic seabed survey equipment (4 licences).
 T acoustic seabed survey equipment.
 T aero-engine assemblies.
 anti-friction bearings.
 bacteria (6 licences) [See footnote 144].
 beryllium [See footnote 62].
 T biotechnology equipment.
 chemical mixtures (3 licences) [See footnote 2].
 chemicals.
 chemicals used for chemical/materials production.
 chemicals used for general laboratory work/scientific research (7 licences) [See footnote 39].
 chemicals used for pharmaceutical/healthcare production (3 licences).
 civil construction equipment.
 civil explosive detection/identification equipment (31 licences) [See footnotes 352, 52].
 T civil explosive detection/identification equipment.
 civil explosive detection/identification software.
 civil NBC detection software.
 civil NBC detection systems (2 licences).
 civil NBC protection clothing [See footnote 35].
 T civil NBC protection clothing.

T civil NBC protection equipment (9 licences) [See footnote 60].

T civil NBC protection equipment.

T civil riot control agent protection equipment (3 licences).

T civil unmanned air vehicles [See footnote 393].

components for civil aircraft.

components for civil explosive detection/identification equipment.

components for civil NBC detection systems.

components for civil riot control agent protection equipment.

components for compressors.

T components for corrosion resistant chemical manufacturing equipment (10 licences).

components for counter-improvised explosive device equipment.

components for gas detection equipment.

components for gas purification equipment [See footnote 359].

components for inspection equipment (2 licences).

components for machine tools.

components for marine position fixing equipment.

components for materials processing equipment.

components for materials testing equipment.

components for pipeline inspection equipment.

components for power supplies.

components for process control equipment.

components for pumps.

components for radar equipment (2 licences) [See footnotes 314, 379].

components for semiconductor manufacturing equipment [See footnote 360].

components for steam systems.

components for submersible vehicles.

components for telecommunications interception equipment (2 licences).

T components for telecommunications interception equipment (5 licences) [See footnotes 101, 93, 94].

components for temperature measurement equipment.

components for valves.

components for welding equipment.

constituents of propellants.

corrosion resistant chemical manufacturing equipment (72 licences) [See footnotes 124, 125, 126, 142, 162, 165, 169, 172, 174, 177, 28, 349, 350, 47, 56, 57, 6, 63, 64, 68, 71, 77, 86, 91, 92, 97].

T counter-improvised explosive device equipment (2 licences) [See footnote 40].

counter-improvised explosive device equipment (8 licences) [See footnotes 102, 210, 214].

deuterium compounds (5 licences) [See footnotes 139, 16].

T devices containing enriched lithium compounds (2 licences).

T devices for initiating explosives (2 licences).

dimensional inspection equipment.

T direct view imaging equipment (3 licences).

display equipment.

diver location sonars (4 licences).

T diver location sonars (4 licences).

electrical switching equipment.

electromagnetic wave absorbing materials [See footnote 347].

electronics cooling fluids.

T equipment for intrusion software [See footnote 179].

explosives detection equipment (2 licences).

T explosives detection equipment (4 licences) [See footnote 150].

fibrous/filamentary materials (5 licences) [See footnotes 134, 135, 48, 79].

frequency changers (3 licences) [See footnotes 130, 131].

gas detection equipment (7 licences).

gas processing equipment.

gas purification equipment [See footnote 359].

general industrial production equipment (7 licences).

general laboratory equipment.

guidance/navigation equipment (6 licences).

gyroscopes (2 licences).

hafnium.

hafnium compounds [See footnote 346].

hafnium manufactures [See footnote 345].

high energy capacitors [See footnote 82].

hydrophones [See footnote 362].

T hydrophones.

imaging cameras (13 licences) [See footnotes 362, 363].

T imaging cameras (15 licences) [See footnotes 153, 209, 227, 255].

industrial generators.
 inertial equipment (43 licences) [See footnotes 18, 357, 362, 365, 368, 370, 88].
 T inertial equipment (5 licences).
 information security equipment (233 licences) [See footnotes 143, 149, 164, 168, 171, 207, 23, 253, 284, 31, 373, 374, 375, 376, 377, 378, 387, 388, 402, 59, 67, 83].
 T information security equipment (19 licences) [See footnotes 114, 127, 173, 248, 275, 399].
 information security software (68 licences) [See footnotes 25, 253, 31, 372, 43].
 T information security software (2 licences).
 inspection equipment (3 licences) [See footnote 358].
 instrumentation cameras.
 internet protocol network communications surveillance equipment.
 laser optical components (2 licences).
 T laser radar equipment (2 licences).
 levelling devices.
 machine tools (4 licences) [See footnote 85].
 marine position fixing equipment (4 licences) [See footnotes 361, 365].
 materials analysis equipment (3 licences).
 materials testing equipment (2 licences).
 non-certified aero-engines.
 T non-certified aero-engines.
 non-ferrous alloys.
 numerical control software.
 pathogenic genetic elements (3 licences) [See footnote 348].
 pipeline inspection equipment.
 pressure monitoring equipment.
 pressure transducers [See footnote 360].
 process control equipment (2 licences).
 pumps.
 radar equipment.
 T radar equipment (6 licences) [See footnotes 209, 229, 243].
 rebreathing swimming equipment.
 RF direction finding equipment (2 licences).
 T RF direction finding equipment (2 licences) [See footnote 173].
 seals.
 T signal generators [See footnote 155].
 smooth-bore weapons (1).
 software for diver location sonars (5 licences).
 T software for diver location sonars (2 licences).
 software for inertial equipment (3 licences) [See footnote 106].
 software for information security equipment (33 licences) [See footnotes 284, 387, 402, 53, 72].
 T software for information security equipment (2 licences) [See footnotes 248, 275].
 software for internet protocol network communications surveillance equipment.
 software for machine tools [See footnote 85].
 software for nuclear reactors.
 software for submersible equipment.
 software for telecommunications interception equipment (4 licences) [See footnote 73].
 T software for telecommunications interception equipment (5 licences) [See footnotes 101, 93, 94].
 T software for telecommunications jamming equipment.
 software for toxic gas monitoring equipment.
 sonar log equipment.
 T sonar log equipment.
 T spacecraft telemetry and telecommand equipment [See footnote 397].
 sporting shotgun ammunition [See footnote 75].
 sporting shotguns (1) [See footnote 75].
 sporting shotguns (14) [See footnote 333].
 sporting shotguns (20) [See footnote 136].
 submersible equipment (21 licences) [See footnotes 362, 367, 369].
 submersible vehicles (3 licences).
 technology for counter-improvised explosive device equipment (2 licences) [See footnote 40].
 technology for information security equipment (29 licences) [See footnotes 13, 149, 376, 387, 51, 72].
 technology for information security software (2 licences) [See footnote 387].
 technology for machine tools [See footnote 85].
 technology for pipeline inspection equipment.
 technology for telecommunications interception equipment (2 licences).
 technology for X-ray generators.
 telecommunications equipment.

telecommunications interception equipment (4 licences) [See footnote 73].
T telecommunications interception equipment (10 licences) [See footnotes 101, 206, 218, 326, 93, 94].
T telecommunications jamming equipment.
temperature measurement equipment.
T test equipment for inertial equipment.
towed hydrophone arrays (3 licences).
T towed hydrophone arrays.
toxic gas detectors (3 licences) [See footnotes 364, 366].
toxins (4 licences) [See footnote 329].
viruses (5 licences) [See footnote 99].
X-ray accelerators.
X-ray generators.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value

ML22	4	£22,450
PL5017	6	£37,501
PL9010	5	£2,206,650

assault rifles (2).
assault rifles (7).
bomb suits.
civil explosive detection/identification equipment (2 licences).
T civil explosive detection/identification equipment (2 licences).
civil NBC detection systems.
T civil NBC detection systems (2 licences).
T civil NBC protection clothing [See footnote 391].
civil NBC protection equipment (2 licences) [See footnote 211].
T civil NBC protection equipment (6 licences) [See footnotes 176, 178, 391, 54].
T civil riot control agent protection equipment (6 licences) [See footnotes 176, 178, 391, 54].
components for assault rifles.
components for civil NBC protection equipment.
T components for civil riot control agent protection equipment [See footnote 391].
components for military communications equipment (2 licences).
T components for military communications equipment.
T components for military electronic equipment.
components for munitions/ordnance detection/disposal equipment (2 licences).
components for naval communications equipment (3 licences).
T components for NBC detection equipment (2 licences).
components for NBC protective/defensive equipment (2 licences) [See footnote 211].

T components for NBC protective/defensive equipment (6 licences) [See footnotes 176, 178, 391, 54].
 components for sniper rifles.

T components for sniper rifles [See footnote 405].
 components for sporting guns (3 licences).
 direct view imaging equipment.

T direct view imaging equipment (15 licences) [See footnotes 180, 184, 199, 208, 221, 254, 264, 389, 395, 396, 405].
 equipment for the use of military communications equipment.

T equipment for the use of military communications equipment.
 equipment for the use of military equipment for initiating explosives.
 equipment for the use of naval communications equipment.

T equipment for the use of NBC detection equipment.

T equipment for the use of sniper rifles.

T equipment for the use of weapon sights (3 licences) [See footnotes 199, 208, 221].

T general military vehicle components.

T gun silencers (2 licences).

T gun silencers [See footnote 405].

T imaging cameras (4 licences).

T imaging cameras (23 licences) [See footnotes 176, 178, 180, 184, 199, 208, 221, 254, 389, 391, 395, 396, 54].
 improvised explosive device disruptors.

T information security equipment (4 licences).

T information security equipment (8 licences) [See footnotes 156, 170, 220, 269].

T information security software.

T military communications equipment (4 licences).

T military communications equipment (8 licences) [See footnotes 156, 176, 178, 391].

T military diving apparatus (2 licences) [See footnotes 391, 54].

T military electronic equipment (7 licences) [See footnotes 170, 220, 269].
 military equipment for initiating explosives.
 military helmets.

T military image intensifier equipment [See footnote 221].

T military image recording/processing equipment (2 licences).

T military laser protection equipment (6 licences) [See footnotes 176, 178, 391, 54].
 munitions/ordnance detection/disposal equipment.
 naval communications equipment (3 licences).
 NBC detection equipment.

T NBC detection equipment (3 licences) [See footnote 391].
 NBC protective/defensive equipment (2 licences) [See footnote 211].

T NBC protective/defensive equipment (6 licences) [See footnotes 176, 178, 391, 54].

T rebreathing swimming equipment (4 licences) [See footnotes 176, 178].
 rifles (1).

T small arms ammunition [See footnote 405].

T sniper rifles (1) [See footnote 405].
 sniper rifles (5).

T software enabling equipment to function as military communications equipment.
 software for military communications equipment.

T software for military communications equipment.

T Software for modelling/simulating military operation scenarios.
 software for naval communications equipment (2 licences).
 sporting guns (2) (2 licences).
 sporting guns (81).
 sporting guns (106).
 sporting shotguns (1).
 sporting shotguns (5).
 sporting shotguns (7).
 sporting shotguns (8) (2 licences).

T targeting equipment (7 licences) [See footnotes 180, 184, 395, 396].

T technology for equipment for the use of weapon sights (2 licences) [See footnotes 199, 221].
 technology for information security equipment.
 technology for military communications equipment.
 technology for naval communications equipment.
 weapon night sights (4 licences).

T weapon night sights (10 licences) [See footnotes 199, 208, 221, 254, 264, 389, 395, 396].

T weapon sight mounts (3 licences) [See footnotes 199, 208, 221].
 weapon sights (3 licences).

T weapon sights (4 licences) [See footnotes 199, 208, 221, 405].

Refused

	Count
Military	4
Non-military	65
Total	69

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry
ML1	2
ML10	1
ML11	1

military communications equipment.
military helicopters.
weapon night sights (2 licences).

Non-military

Control Entry	No. of licences with goods rated using Control Entry
1C350	2
End Use	62
PL9009	1

accessories for gas detection equipment (2 licences).
accessories for general industrial production equipment.
accessories for materials testing equipment.
chemicals used for general laboratory work/scientific research (2 licences).
civil construction equipment.
components for civil aircraft.
components for corrosion resistant chemical manufacturing equipment.
components for gas detection equipment (4 licences).
components for industrial generators (2 licences).
components for materials testing equipment (2 licences).
components for temperature measurement equipment.
components for valves.
electric motors.
electrical switching equipment (6 licences).
equipment for the use of gas detection equipment.
ferrous alloys.
ferrous metals.
gas detection equipment (10 licences).
industrial generators.
inspection equipment.
materials analysis equipment (2 licences).
materials testing equipment (31 licences).
pressure monitoring equipment.

Information on the Criteria used (from the Consolidated EU and National Arms Export Licensing Criteria) for the above refusals (refusals under WMD are covered by Criterion 1).

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	aircraft cannons, components for aircraft cannons, technology for aircraft cannons
2	P	aircraft cannons, components for aircraft cannons, components for combat aircraft, components for launching/handling/control equipment for munitions, components for military aero-engines, components for military training aircraft, launching/handling/control equipment for munitions, military aero-engines, military aircraft ground equipment, technology for aircraft cannons, technology for combat aircraft, technology for launching/handling/control equipment for munitions, technology for military aero-engines, technology for military aircraft ground equipment, technology for military training aircraft
3	P	components for airborne refuelling equipment, components for combat aircraft, components for military aero-engines, components for military helicopters,

		components for military support aircraft, components for military training aircraft, general military aircraft components
4	P	components for information security equipment, information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software [See footnote 5]
5	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment
6	P	military aero-engines
7	P	heading sensors for hydrophone arrays, marine acoustic projectors, towed hydrophone arrays, underwater cable hydrophone arrays
8	P	accessories for military image intensifier equipment, command communications control and intelligence software, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military image intensifier equipment, components for rangefinding equipment, components for targeting equipment, goods treated for signature suppression for military use, military communications equipment, military electronic equipment, military guidance/navigation equipment, military image intensifier equipment, rangefinding equipment, software for military communications equipment, software for military electronic equipment, software for military guidance/navigation equipment, software for military image intensifier equipment, software for rangefinding equipment, software for targeting equipment, targeting equipment, technology for command communications control and intelligence software, technology for goods treated for signature suppression for military use, technology for military communications equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for military image intensifier equipment, technology for rangefinding equipment, technology for software for military communications equipment, technology for targeting equipment
9	T	imaging cameras
10	P	components for devices for initiating explosives, components for military equipment for initiating explosives, components for military improvised explosive device decoying/detection/disposal/jamming equipment, equipment for the use of military equipment for initiating explosives, military equipment for initiating explosives, military improvised explosive device decoying/detection/disposal/jamming equipment, military training equipment
11	P	components for military helicopters, components for military support aircraft
12	P	assault rifles, body armour, components for assault rifles, components for body armour, components for pistols, components for sporting guns, direct view imaging equipment, military helmets, pistols, small arms ammunition, sporting guns, weapon sights
13	P	Technology specified by ML22a of the Export Control Order 2008 relating to goods falling within the following entries - ML5 ML9 ML11 ML15 ML16 ML17 EXCEPT goods falling within ML11 and ML17n insofar as they are for use in connection with cluster munitions and explosive submunitions and explosive bomblets

14	P	components for combat aircraft, components for military aero-engines, components for military support aircraft, components for military training aircraft, environmental test facilities for military aero-engines, equipment for the production of military aero-engines, equipment for the use of military aero-engines, military aero-engines, military aircraft ground equipment, military containers, software for military aero-engines, technology for military aero-engines, unfinished products for military aero-engines
15	P	equipment for intrusion software, software for intrusion software, technology for equipment for intrusion software
16	P	components for electronic warfare equipment, equipment for the use of electronic warfare equipment, software for electronic warfare equipment, technology for electronic warfare equipment
17	P	acoustic devices for riot control, assault rifles, body armour, combat shotguns, components for assault rifles, components for body armour, components for combat shotguns, components for pistols, components for rifles, components for sniper rifles, components for sporting shotguns, military helmets, pistols, rifles, small arms ammunition, sniper rifles, sporting shotgun ammunition, sporting shotguns, weapon sights
18	T	hydrophones
19	T	command communications control and intelligence software, components for combat aircraft, components for military training aircraft, launching/handling/control equipment for munitions, military software, military training equipment, software for military communications equipment, software for military training aircraft, software for military training equipment, Software for modelling/simulating military operation scenarios [See footnote 66]
20	T	military support aircraft [See footnote 19]
21	P	components for combat aircraft, components for combat helicopters, components for military helicopters, components for military support aircraft, components for military training aircraft
22	P	information security software
23	P	components for submersible vehicles, frequency generators, high energy capacitors, imaging cameras, inertial equipment, metal alloy cylindrical forms, metal alloy tubes, submersible equipment
24	P	components for military combat vehicles, components for military support vehicles, components for tanks [See footnote 61]
25	P	accessories for military training equipment, components for equipment for the development of military software, components for equipment for the development of military training equipment, components for equipment for the development of software enabling equipment to function as military training equipment, components for equipment for the production of military software, components for equipment for the production of military training equipment, components for equipment for the production of software enabling equipment to function as military training equipment, components for equipment for the use of military software, components for equipment for the use of military training equipment, components for equipment for the use of software enabling equipment to function as military training equipment, components for military training equipment, environmental test facilities for military software, environmental test facilities for military training equipment, environmental test facilities for software enabling equipment to function as military training equipment, equipment for the development of military software, equipment for the development of military training equipment, equipment for the development of software enabling equipment to function as military training equipment, equipment for the production of military software, equipment for the production of military training equipment, equipment for the production of software enabling equipment to function as military training equipment, equipment for the use of military software, equipment for the use of military training equipment, equipment for the use of software enabling equipment to function as military training equipment, information security equipment, military software, military training equipment, software enabling equipment to function as military training equipment, software for military software, software for military training equipment, software for software enabling equipment to function as military training equipment, technology for military software, technology for military training equipment, technology for software enabling equipment to function as military training equipment [See footnote 80]

26	P	information security equipment, information security software
27	P	components for equipment for the production of military support aircraft, components for military support aircraft, equipment for the production of military support aircraft, military aircraft ground equipment, technology for equipment for the production of military support aircraft, technology for military aircraft ground equipment, technology for military support aircraft [See footnote 87]
28	T	hydrophones
29	T	towed hydrophone arrays
30	T	towed hydrophone arrays
31	T	towed hydrophone arrays
32	P	hydrophones, towed hydrophone arrays [See footnote 95]
33	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, technology for combat aircraft, technology for combat helicopters, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 98]
34	P	components for aircraft military communications equipment, components for combat aircraft, components for military aero-engines, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, general military aircraft components, military aircraft ground equipment [See footnote 115]
35	P	components for small arms ammunition, small arms ammunition [See footnote 116]
36	P	counter-improvised explosive device equipment [See footnote 118]
37	P	aircraft seals, guidance/navigation equipment, inertial equipment [See footnote 137]
38	P	civil NBC protection equipment, civil riot control agent protection equipment, components for civil NBC protection equipment, components for NBC protective/defensive equipment, military communications equipment, NBC protective/defensive equipment, rebreathing swimming equipment [See footnote 138]
39	P	accessories for military training equipment, airborne refuelling equipment, aircraft military communications equipment, aircraft missile protection systems, components for airborne refuelling equipment, components for aircraft military communications equipment, components for aircraft missile protection systems, components for combat aircraft, components for combat helicopters, components for decoying/countermeasure equipment, components for military aero-engines, components for military aircraft head-up/down displays, components for military communications equipment, components for military guidance/navigation equipment, components for military helicopters, components for military radars, components for military support aircraft, components for military training aircraft, components for military training equipment, decoying/countermeasure equipment, equipment for the operation of military aircraft in confined areas, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft head-up/down displays, military aircraft pressure refuellers, military aircrew life support equipment, military aircrew safety equipment, military communications equipment, military guidance/navigation equipment, military radars, military training equipment, signalling devices [See footnote 158]
40	P	components for aircraft carriers, components for combat naval vessels, components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components, technology for aircraft carriers, technology for combat naval vessels, technology for general naval vessel components, technology for military auxiliary/support vessels, technology for military patrol/assault craft [See footnote 159]

41	P	aircraft seals, guidance/navigation equipment, inertial equipment [See footnote 160]
42	T	software for military radars [See footnote 163]
43	P	components for aircraft carriers, components for combat naval vessels, components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components [See footnote 167]
44	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment
45	P	components for combat aircraft, components for military training aircraft, equipment for the use of combat aircraft, equipment for the use of military training aircraft, military aircraft ground equipment, technology for combat aircraft, technology for military aircraft ground equipment, technology for military training aircraft [See footnote 175]
46	P	assault rifles, blank/inert ammunition, components for assault rifles, components for machine guns, components for pistols, components for rifles, components for sniper rifles, components for sporting guns, machine guns, pistols, rifles, sniper rifles, sporting guns, training small arms ammunition [See footnote 182]
47	P	military guidance/navigation equipment, software for military guidance/navigation equipment, software for weapon control equipment, technology for military guidance/navigation equipment, technology for weapon control equipment, weapon control equipment
48	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, components for military parachutist equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, military parachutist equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 202]
49	P	technology for composite laminates, technology for composite structures, technology for gas turbine engines, technology for maraging steels, technology for metal alloy materials, technology for metal alloys in particulate form, technology for metal alloys in powder form [See footnote 205]
50	T	accelerometers, guidance/navigation equipment, gyroscopes, inertial equipment
51	P	accessories for military image intensifier equipment, command communications control and intelligence software, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military image intensifier equipment, components for rangefinding equipment, components for targeting equipment, goods treated for signature suppression for military use, military communications equipment, military electronic equipment, military guidance/navigation equipment, military image intensifier equipment, rangefinding equipment, software for military communications equipment, software for military electronic equipment, software for military guidance/navigation equipment, software for military image intensifier equipment, software for rangefinding equipment, software for targeting equipment, targeting equipment, technology for command communications control and intelligence software, technology for goods treated for signature suppression for military use, technology for military communications equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for military image intensifier equipment, technology for rangefinding equipment, technology for software for military communications equipment, technology for targeting equipment

52	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 215]
53	P	components for airborne refuelling equipment, components for aircraft cannons, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military training aircraft, general military aircraft components [See footnote 222]
54	P	components for aircraft cannons, equipment for the use of aircraft cannons, software for aircraft cannons, technology for aircraft cannons, weapon cleaning equipment [See footnote 224]
55	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, military aircrew life support equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 225]
56	P	components for military communications equipment, equipment for the operation of military aircraft in confined areas, equipment for the use of equipment for the operation of military aircraft in confined areas, military communications equipment, software for equipment for the operation of military aircraft in confined areas, software for military communications equipment, technology for equipment for the operation of military aircraft in confined areas, technology for military communications equipment [See footnote 226]
57	P	components for military aero-engines, components for military aircrew safety equipment, components for military guidance/navigation equipment, components for military training aircraft, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military aircrew safety equipment, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment,

		military aircrew safety equipment, military guidance/navigation equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew safety equipment, technology for military guidance/navigation equipment, technology for military training aircraft [See footnote 228]
58	P	components for aircraft military communications equipment, components for military communications equipment, components for military helmets, equipment for the production of aircraft military communications equipment, equipment for the production of military communications equipment, equipment for the use of aircraft military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military helmets [See footnote 231]
59	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 232]
60	P	civil NBC protection clothing, civil NBC protection equipment, components for civil NBC protection equipment, components for NBC protective/defensive equipment, equipment for the use of NBC protective/defensive equipment, NBC protective/defensive equipment, technology for civil NBC protection equipment, technology for NBC protective/defensive equipment [See footnote 237]
61	P	components for gun mountings, components for weapon sights, weapon sights [See footnote 241]

62	P	components for military combat vehicles, general military vehicle components [See footnote 249]
63	P	components for combat aircraft, components for military support aircraft, components for military training aircraft [See footnote 260]
64	P	components for military support aircraft [See footnote 261]
65	P	components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for NBC protective/defensive equipment, components for submarines, components for tanks, general military aircraft components, general military vehicle components, general naval vessel components, NBC protective/defensive equipment [See footnote 267]
66	P	airborne refuelling equipment, aircraft cannons, attack alerting/warning equipment, components for airborne refuelling equipment, components for attack alerting/warning equipment, components for combat aircraft, components for military aero-engines, components for military infrared/thermal imaging equipment, components for weapon control equipment, countermeasure equipment for military infrared/thermal imaging equipment, decoying/countermeasure equipment, equipment for the operation of military aircraft in confined areas, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military aircrew safety equipment, military communications equipment, military electronic equipment, military infrared/thermal imaging equipment, military parachutes, software for airborne refuelling equipment, software for aircraft cannons, software for attack alerting/warning equipment, software for combat aircraft, software for decoying/countermeasure equipment, software for equipment for the operation of military aircraft in confined areas, software for military aero-engines, software for military aircraft ground equipment, software for military aircraft pressure refuellers, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military communications equipment, software for military electronic equipment, software for military infrared/thermal imaging equipment, software for military parachutes, software for weapon control equipment, technology for airborne refuelling equipment, technology for aircraft cannons, technology for attack alerting/warning equipment, technology for combat aircraft, technology for decoying/countermeasure equipment, technology for equipment for the operation of military aircraft in confined areas, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircraft pressure refuellers, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military communications equipment, technology for military electronic equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes, technology for weapon control equipment, weapon control equipment [See footnote 268]
67	P	components for inertial equipment, inertial equipment, software for inertial equipment, software for test equipment for inertial equipment, technology for inertial equipment, test equipment for inertial equipment [See footnote 270]
68	T	towed hydrophone arrays [See footnote 272]
69	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment [See footnote 317]
70	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, components for inertial equipment, guidance/navigation equipment, gyroscopes, inertial equipment [See footnote 273]
71	P	aircraft military communications equipment, attack alerting/warning equipment, components for aircraft military communications equipment, components for equipment for the operation of military aircraft in confined areas, components for military communications equipment, components for military electronic equipment, components for military support aircraft, counter-countermeasure equipment for military cameras/photographic equipment, counter-countermeasure equipment for military image intensifier equipment, counter-countermeasure equipment for military image recording/processing equipment, counter-countermeasure equipment for

		<p>military imaging radar sensor equipment, decoying/countermeasure equipment, electronic countermeasure equipment, electronic warfare equipment, equipment for the production of military support aircraft, general military aircraft components, military aircraft ground equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military image intensifier equipment, military image recording/processing equipment, military imaging radar sensor equipment, military infrared/thermal imaging equipment, recognition/identification equipment, software for aircraft military communications equipment, software for counter-countermeasure equipment for military cameras/photographic equipment, software for counter-countermeasure equipment for military image intensifier equipment, software for counter-countermeasure equipment for military image recording/processing equipment, software for counter-countermeasure equipment for military imaging radar sensor equipment, software for decoying/countermeasure equipment, software for electronic countermeasure equipment, software for electronic warfare equipment, software for equipment for the operation of military aircraft in confined areas, software for general military aircraft components, software for military aircraft ground equipment, software for military cameras/photographic equipment, software for military communications equipment, software for military electronic equipment, software for military image intensifier equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal imaging equipment, software for military support aircraft, technology for aircraft military communications equipment, technology for counter-countermeasure equipment for military cameras/photographic equipment, technology for counter-countermeasure equipment for military image intensifier equipment, technology for counter-countermeasure equipment for military image recording/processing equipment, technology for counter-countermeasure equipment for military imaging radar sensor equipment, technology for decoying/countermeasure equipment, technology for electronic warfare equipment, technology for equipment for the operation of military aircraft in confined areas, technology for general military aircraft components, technology for military aircraft ground equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military support aircraft [See footnote 274]</p>
72	P	<p>airborne refuelling equipment, components for airborne refuelling equipment, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, military aircraft ground equipment [See footnote 277]</p>
73	P	<p>airframe structures, civil aero-engines, components for civil aero-engines, components for civil aircraft [See footnote 316]</p>
74	P	<p>components for airborne refuelling equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military containers, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for unmanned air vehicles, equipment for the operation of military aircraft in confined areas, equipment for the use of general military aircraft components, equipment for the use of military aircraft head-up/down displays, general military aircraft components, general military vehicle components, general naval vessel components, software for combat aircraft, software for combat helicopters, software for equipment for the operation of military aircraft in confined areas, software for general military aircraft components, software for general military vehicle components, software for general naval vessel components, software for military aircraft head-up/down displays, software for military helicopters, software for military support aircraft, software for submarines, technology for general military aircraft components, technology for military aircraft head-up/down displays, unfinished products for airborne refuelling equipment, unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for equipment for the operation of military aircraft in confined areas, unfinished products for equipment for the use of general military aircraft components, unfinished products for general military aircraft components, unfinished products for general military vehicle components, unfinished products for general naval vessel components, unfinished products for military aircraft head-up/down</p>

		displays, unfinished products for military containers, unfinished products for military guidance/navigation equipment, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for unmanned air vehicles [See footnote 318]
75	P	information security equipment, information security software, software for information security equipment, technology for information security equipment [See footnote 282]
76	P	components for submersible vehicles, frequency generators, high energy capacitors, imaging cameras, inertial equipment, metal alloy tubes, sonar log equipment, submersible equipment, syntactic foam [See footnote 285]
77	P	components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components [See footnote 319]
78	P	components for equipment for the use of electronic countermeasure equipment, components for launching/handling/control equipment for rockets, components for military electronic equipment, components for rangefinding equipment, equipment for the use of electronic countermeasure equipment, launching/handling/control equipment for rockets, military electronic equipment, rangefinding equipment, software for electronic countermeasure equipment, software for launching/handling/control equipment for rockets, software for military electronic equipment, software for rangefinding equipment, technology for electronic countermeasure equipment, technology for launching/handling/control equipment for rockets, technology for military electronic equipment, technology for rangefinding equipment [See footnote 303]
79	P	civil explosive detection/identification equipment [See footnote 304]
80	P	components for military radars, equipment for the use of military radars, software for military radars, software for software for military radars, technology for military radars [See footnote 305]
81	P	components for military support aircraft [See footnote 306]
82	P	marine position fixing equipment, underwater telecommunications systems
83	P	information security equipment, information security software [See footnote 336]
84	P	civil NBC protection equipment, components for civil NBC protection equipment, components for NBC protective/defensive equipment, equipment for the use of NBC protective/defensive equipment, imaging cameras, NBC protective/defensive equipment, software for equipment for the use of NBC protective/defensive equipment, technology for civil NBC protection equipment, technology for NBC protective/defensive equipment
85	P	accessories for attack alerting/warning equipment, accessories for electronic countermeasure equipment, accessories for fire location equipment, accessories for military cameras/photographic equipment, accessories for military image intensifier equipment, accessories for military image recording/processing equipment, accessories for military imaging radar sensor equipment, accessories for military infrared/thermal imaging equipment, accessories for targeting equipment, accessories for weapon control equipment, airborne refuelling equipment, attack alerting/warning equipment, automatic piloting systems for parachuted loads, components for airborne refuelling equipment, components for attack alerting/warning equipment, components for automatic piloting systems for parachuted loads, components for electronic countermeasure equipment, components for fire location equipment, components for launching/handling/control equipment for munitions, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew safety equipment, components for military cameras/photographic equipment, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military parachutes, components for military scenario simulation equipment, components for military training aircraft, components for military training equipment, components for targeting equipment, components for weapon control equipment, countermeasure equipment for military cameras/photographic equipment, countermeasure equipment for military image intensifier equipment, countermeasure equipment for military image recording/processing equipment, countermeasure equipment for military imaging radar sensor equipment, countermeasure equipment for military infrared/thermal imaging equipment, electronic countermeasure equipment, fire location equipment, launching/handling/control equipment for munitions, military

		aero-engines, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, military image intensifier equipment, military image recording/processing equipment, military imaging radar sensor equipment, military infrared/thermal imaging equipment, military parachutes, military parametric technical databases, military scenario simulation equipment, military training aircraft, military training equipment, software for attack alerting/warning equipment, software for countermeasure equipment for military cameras/photographic equipment, software for countermeasure equipment for military image intensifier equipment, software for countermeasure equipment for military image recording/processing equipment, software for countermeasure equipment for military imaging radar sensor equipment, software for countermeasure equipment for military infrared/thermal imaging equipment, software for electronic countermeasure equipment, software for fire location equipment, software for military cameras/photographic equipment, software for military communications equipment, software for military electronic equipment, software for military guidance/navigation equipment, software for military image intensifier equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal imaging equipment, software for military training aircraft, Software for modelling/simulating military operation scenarios, Software for modelling/simulating/evaluating weapon systems, software for targeting equipment, software for weapon control equipment, targeting equipment, technology for attack alerting/warning equipment, technology for countermeasure equipment for military cameras/photographic equipment, technology for countermeasure equipment for military image intensifier equipment, technology for countermeasure equipment for military image recording/processing equipment, technology for countermeasure equipment for military imaging radar sensor equipment, technology for countermeasure equipment for military infrared/thermal imaging equipment, technology for electronic countermeasure equipment, technology for fire location equipment, technology for launching/handling/control equipment for munitions, technology for military aircraft ground equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military scenario simulation equipment, technology for military training aircraft, technology for military training equipment, technology for targeting equipment, technology for weapon control equipment, test models for military training aircraft, unfinished products for military training aircraft, weapon control equipment [See footnote 310]
86	P	components for air-to-surface missiles, components for electronic warfare equipment, components for equipment for the use of air-to-surface missiles, components for equipment for the use of electronic warfare equipment, components for launching/handling/control equipment for missiles, electronic warfare equipment, equipment for the use of air-to-surface missiles, equipment for the use of electronic warfare equipment, launching/handling/control equipment for missiles, software for air-to-surface missiles, software for equipment for the use of air-to-surface missiles, technology for air-to-surface missiles, technology for equipment for the use of air-to-surface missiles, technology for software for air-to-surface missiles, technology for software for equipment for the use of air-to-surface missiles [See footnote 311]
87	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military guidance/navigation equipment, military communications equipment, military guidance/navigation equipment, software for aircraft military communications equipment, software for military guidance/navigation equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment [See footnote 322]
88	T	towed hydrophone arrays
89	P	components for military combat vehicles, components for military support vehicles, components for tanks [See footnote 324]
90	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security

		equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software
91	P	aircraft cannons, components for aircraft cannons, technology for aircraft cannons
92	P	components for marine position fixing equipment, marine position fixing equipment
93	T	components for submersible vehicles, submersible equipment, submersible vehicles, syntactic foam
94	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, information security software, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security equipment, software for information security software, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software [See footnote 406]
95	P	aircraft gaskets, aircraft military communications equipment, aircraft seals, components for aircraft military communications equipment, components for equipment for the use of aircraft military communications equipment, components for equipment for the use of general military aircraft components, components for equipment for the use of military aero-engines, components for equipment for the use of military communications equipment, components for equipment for the use of military guidance/navigation equipment, components for equipment for the use of military radars, components for equipment for the use of military support aircraft, components for military aero-engines, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of aircraft military communications equipment, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military communications equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military radars, equipment for the use of military support aircraft, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, military radars, technology for aircraft military communications equipment, technology for general military aircraft components, technology for military aero-engines, technology for military communications equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for military radars, technology for military support aircraft [See footnote 337]
96	P	information security equipment
97	P	components for military aero-engines
98	T	towed hydrophone arrays [See footnote 407]

99	T	command communications control and intelligence software, components for combat aircraft, components for military training aircraft, launching/handling/control equipment for munitions, military software, military support vehicles, military training equipment, software for military communications equipment, software for military training aircraft, software for military training equipment, Software for modelling/ simulating military operation scenarios [See footnote 408]
----	---	---

Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	civil NBC protection equipment, components for civil NBC protection equipment, components for NBC protective/defensive equipment, equipment for the use of NBC protective/defensive equipment, military communications equipment, military laser protection equipment, NBC protective/defensive equipment, technology for civil NBC protection equipment, technology for NBC protective/defensive equipment
2	P	anti-riot/ballistic shields, armoured plate, body armour, bomb suits, components for body armour, military communications equipment, military helmets
3	P	components for military image intensifier equipment, components for rangefinding equipment, components for weapon control equipment, components for weapon sight mounts, components for weapon sights, military image intensifier equipment, rangefinding equipment, software for military image intensifier equipment, software for rangefinding equipment, technology for military image intensifier equipment, technology for rangefinding equipment, technology for weapon control equipment, technology for weapon sight mounts, technology for weapon sights, weapon control equipment, weapon sight mounts, weapon sights
4	P	components for devices containing military pyrotechnic materials, crowd control ammunition, CS hand grenades, demolition charges/devices, devices containing military pyrotechnic materials, hand grenades, illuminators, munitions/ordnance detection/disposal equipment, signalling devices, smoke canisters, smoke/ pyrotechnic ammunition, tear gas/irritant ammunition, tear gas/riot control agents, training hand grenades
5	P	weapon sights
6	P	equipment for the use of weapon sights, goods treated for signature suppression for military use, technology for equipment for the use of weapon sights, weapon night sights, weapon sight mounts
7	P	weapon sights
8	P	accessories for attack alerting/warning equipment, accessories for electronic countermeasure equipment, accessories for fire location equipment, accessories for military cameras/photographic equipment, accessories for military image recording/ processing equipment, accessories for targeting equipment, accessories for weapon control equipment, airborne refuelling equipment, attack alerting/warning equipment, automatic piloting systems for parachuted loads, components for airborne refuelling equipment, components for attack alerting/warning equipment, components for automatic piloting systems for parachuted loads, components for electronic countermeasure equipment, components for fire location equipment, components for launching/handling/control equipment for munitions, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew safety equipment, components for military cameras/ photographic equipment, components for military image recording/processing equipment, components for military parachutes, components for military scenario simulation equipment, components for military training aircraft, components for military training equipment, components for targeting equipment, components for weapon control equipment, countermeasure equipment for military cameras/ photographic equipment, countermeasure equipment for military image recording/ processing equipment, electronic countermeasure equipment, fire location equipment, launching/handling/control equipment for munitions, military aero-engines, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military guidance/ navigation equipment, military image recording/processing equipment, military parachutes, military parametric technical databases, military scenario simulation equipment, military training aircraft, military training equipment, software for attack

		alerting/warning equipment, software for electronic countermeasure equipment, software for fire location equipment, software for military communications equipment, software for military electronic equipment, software for military guidance/navigation equipment, software for military training aircraft, software for targeting equipment, software for weapon control equipment, targeting equipment, technology for attack alerting/warning equipment, technology for countermeasure equipment for military cameras/photographic equipment, technology for countermeasure equipment for military image recording/processing equipment, technology for electronic countermeasure equipment, technology for fire location equipment, technology for launching/handling/control equipment for munitions, technology for military aircraft ground equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for military image recording/processing equipment, technology for military scenario simulation equipment, technology for military training aircraft, technology for military training equipment, technology for targeting equipment, technology for weapon control equipment, unfinished products for military training aircraft, weapon control equipment
9	P	components for military image intensifier equipment, components for rangefinding equipment, components for targeting equipment, components for weapon sights, military image intensifier equipment, rangefinding equipment, software for military image intensifier equipment, software for rangefinding equipment, software for targeting equipment, targeting equipment, technology for military image intensifier equipment, technology for rangefinding equipment, technology for targeting equipment, technology for weapon sights, weapon sight mounts, weapon sights
10	P	information security equipment
11	P	information security equipment, information security software
12	P	general purpose integrated circuits, technology for general purpose integrated circuits
13	P	components for military electronic equipment, components for military field engineer equipment, components for military support vehicles, components for munitions/ordnance detection/disposal equipment, general military vehicle components, military electronic equipment, military field engineer equipment, military support vehicles, munitions/ordnance detection/disposal equipment, technology for military electronic equipment, technology for military field engineer equipment, technology for military support vehicles, technology for munitions/ordnance detection/disposal equipment
14	P	airborne refuelling equipment, components for airborne refuelling equipment, components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military aircraft ground equipment, components for military aircraft pressure refuellers, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, military aircraft ground equipment, military aircraft pressure refuellers, military guidance/navigation equipment
15	P	CS hand grenades, depth charges, hand grenades, illuminators, munitions/ordnance detection/disposal equipment, signalling devices, smoke canisters, smoke/pyrotechnic ammunition, tear gas/irritant ammunition, tear gas/riot control agents, training CS hand grenades, training hand grenades, training tear gas/irritant ammunition

Issued

anti-armour ammunition [See footnote 198].
 assault rifles (6) [See footnote 276].
 components for all-wheel drive vehicles with ballistic protection.
 components for assault rifles [See footnote 276].
 components for combat aircraft.
 components for military combat vehicles (5 licences).
 components for military support vehicles.
 components for sniper rifles [See footnote 276].
 explosives.
 general military vehicle components.
 military equipment for initiating explosives.
 sniper rifles (1) [See footnote 276].
 weapon night sights (2 licences) [See footnote 239].
 weapon sights (2 licences) [See footnotes 239, 276].

Issued

accessories for demolition charges/devices [See footnote 266].
 assault rifles (2 licences).
 body armour (2 licences).
 bomb suits (2 licences).

components for assault rifles (2 licences).
 components for body armour (2 licences).
 components for bomb suits.
 components for demolition charges/devices (2 licences) [See footnotes 266, 78].
 components for munitions/ordnance detection/disposal equipment [See footnote 266].
 components for sporting guns.
 demolition charges/devices (2 licences) [See footnote 78].
 explosives.
 military equipment for initiating explosives.
 military helmets (3 licences).
 military image intensifier equipment.
 promoting the supply of acoustic devices for riot control [See footnote 278].
 promoting the supply of assault rifles (3 licences) [See footnotes 278, 279].
 promoting the supply of body armour [See footnote 278].
 promoting the supply of components for assault rifles (2 licences) [See footnotes 278, 279].
 promoting the supply of components for body armour [See footnote 278].
 promoting the supply of components for flash suppressers (2 licences) [See footnotes 278, 279].
 promoting the supply of components for ground vehicle military communications equipment [See footnote 278].
 promoting the supply of components for gun mountings (2 licences) [See footnotes 278, 279].
 promoting the supply of components for military communications equipment [See footnote 278].
 promoting the supply of components for military image intensifier equipment [See footnote 278].
 promoting the supply of components for military infrared/thermal imaging equipment [See footnote 278].
 promoting the supply of components for military shotguns (2 licences) [See footnotes 278, 279].
 promoting the supply of components for naval communications equipment [See footnote 278].
 promoting the supply of components for pistols (2 licences) [See footnotes 278, 279].
 promoting the supply of components for rifles (2 licences) [See footnotes 278, 279].
 promoting the supply of components for small arms ammunition (2 licences) [See footnotes 278, 279].
 promoting the supply of components for smooth-bore weapons (2 licences) [See footnotes 278, 279].
 promoting the supply of components for sniper rifles (2 licences) [See footnotes 278, 279].
 promoting the supply of components for sporting guns (2 licences) [See footnotes 278, 279].
 promoting the supply of components for sporting shotguns (2 licences) [See footnotes 278, 279].
 promoting the supply of components for tactical shotguns (2 licences) [See footnotes 278, 279].
 promoting the supply of components for weapon night sights (2 licences) [See footnotes 278, 279].
 promoting the supply of components for weapon sights (2 licences) [See footnotes 278, 279].
 promoting the supply of flash suppressers (3 licences) [See footnotes 278, 279].
 promoting the supply of ground vehicle military communications equipment [See footnote 278].
 promoting the supply of gun mountings (2 licences) [See footnotes 278, 279].
 promoting the supply of gun silencers.
 promoting the supply of machine guns.
 promoting the supply of military communications equipment [See footnote 278].
 promoting the supply of military helmets [See footnote 278].
 promoting the supply of military image intensifier equipment [See footnote 278].
 promoting the supply of military infrared/thermal imaging equipment [See footnote 278].
 promoting the supply of military shotguns (2 licences) [See footnotes 278, 279].
 promoting the supply of naval communications equipment [See footnote 278].
 promoting the supply of pistols (3 licences) [See footnotes 278, 279].
 promoting the supply of rifles (2 licences) [See footnotes 278, 279].
 promoting the supply of small arms ammunition (3 licences) [See footnotes 278, 279].
 promoting the supply of smooth-bore weapons (2 licences) [See footnotes 278, 279].
 promoting the supply of sniper rifles (2 licences) [See footnotes 278, 279].
 promoting the supply of sporting guns (2 licences) [See footnotes 278, 279].
 promoting the supply of sporting shotgun ammunition (2 licences) [See footnotes 278, 279].
 promoting the supply of sporting shotguns (2 licences) [See footnotes 278, 279].
 promoting the supply of tactical shotguns (2 licences) [See footnotes 278, 279].
 promoting the supply of weapon night sights (2 licences) [See footnotes 278, 279].
 promoting the supply of weapon sights (3 licences) [See footnotes 278, 279].
 small arms ammunition (2 licences).
 software for demolition charges/devices [See footnote 78].
 sporting guns.
 technology for demolition charges/devices [See footnote 78].
 weapon sights.

Rejected

promoting the supply of assault rifles.
promoting the supply of pistols.
promoting the supply of rifles.
promoting the supply of small arms ammunition.
promoting the supply of sniper rifles.
promoting the supply of sporting shotgun ammunition.
