2 FSC12-30 22nd Nov 2012

Overview

The deficit to October 2012 is £1,015k, which is £263k better than the plan for the year to date. For the year to December **we are forecasting a deficit of £1,543k.** (£977k above adjusted for £566k deferral of web project expenditure into 2013, rather than a saving) This is **£40k** worse than budget deficit of **£1,503k** for the year.

		Actuals		Budget	Forecast

Total Surplus/(Deficit)					(1,543)

The deficit of £1,015k for the year is split: £2,319k deficit in Section, £2,019k surplus in Trust and £715k deficit in Freestyle.

Marketing

Total income from our marketing operations is forecast to be £23.7m (details on page 8). The comparable figure for 2011 was £23.1m, so we have potential for a 2.5% increase in gross income for the year. However, this still requires us to raise a further £624k on major donor lines. This income source is difficult to predict.

Other

There are some variances on salary costs shown on page 7 and there are additional costs in the Directorate budget on Board ballot, the Corporate Services Director interregnum and the CAPP consultancy.

2 FSC12-30 22nd Nov 2012

Marketing Commentary

Supporter Recruitment & Development Reforecast Commentary

In terms of the remainder of the year, overall the team have £3,723k to raise and have £739k to spend. We are reasonably confident in this forecast and have outlined below the key areas where this income will come from and highlighted any associated risk.

The majority (£2,304,869) of this income will come from continuing supporters. Retention rates have largely been on track during this financial year and income has come in largely as predicted so although this should be relatively low risk we are mindful of the adverse publicity we are receiving as part of the changes here in the UK section and the IS and feel this poses the greatest risk to this line over the next two months.

The remainder of the income will come from the following lines:

- 1. £227.530 Gift Aid.
- 2. £295,640 Legacies on track
- 3. £163,005 from cash appeals. This assumes that both the October and December cash appeals hit target. To date in 2012, two appeals have exceeded target and two have fallen under. It is probably fair to say that we are less confident in the October cash appeal meeting target than the December one but are monitoring results closely and will highlight any significant concerns over the coming weeks. Specifically there may be a shortfall of around £20-30K.
- 4. £158,178 from Acquisition.
- 5. **£116,699** from Shops on track.
- 6. **£114,059** from Sales. This income will come from our Christmas Catalogue it is early days but initial sales are meeting expectations.
- 7. £93,878 from Community Fundraising on track.
- 8. £78,400 from supporter up-grade programme which is on track.
- 9. £38,562 from Prize Led activity. Raffle on track to meet adjusted target and lottery adjusted already to reflect delays.
- 10. £34,556 from E-coms. There is a relatively high risk associated with this income as it is linked directly to finding strong and topical fundraising topics.
- 11. £33,077 from Reactivation on track

Expenditure

We are currently checking expenditure budgets with the team to ensure that the forecasted budgets are accurate. Initial feedback would indicate that the majority of the £739k is committed spend but, we will be able to confirm this over the next few days and as discussed at the finance meeting there may be room to delay activity if necessary.

Acquisition

The acquisition changes relate to a number of lines but the most significant is a reduction in the staff members for the in-house team. We were hoping that this team would increase in size over the previous few months unfortunately this has not been possible. The smaller team are however, doing well and over the last 2 weeks targets have been exceeded.

We have offset some of this saving by investing more money into Pocket Protest acquisition work. Our recent Pussy Riot and Malala press ads have worked well and based on conversion forecasts provide us with a profitable acquisition channel. As such we are investing more money in testing in this area.

We have recruited **14,494** supporters to date, and have a year end adjusted target of **19,773**. This is unfortunately, 1,109 less than our previous forecast and is predominately from less supporters recruited by the in-house team.

£100k has been added to the Acquisition expenditure forecast to cover the impact of irrecoverable VAT which was not budgeted for.

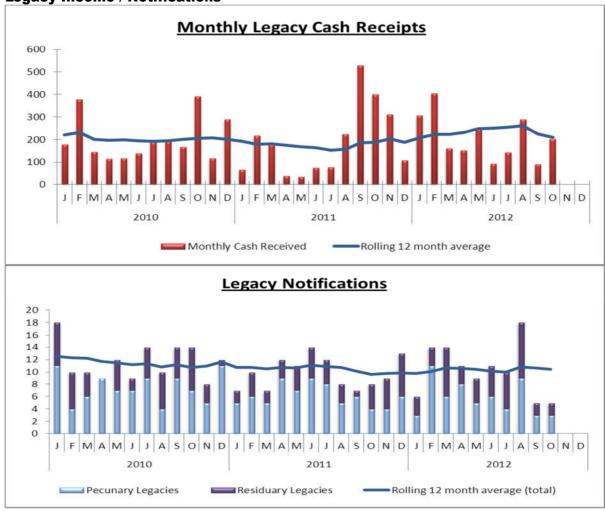

Key Financial Indicators

Total income

At present, the average monthly income would need to increase by £182k per month to achieve the current forecast, although a lot of this is due to the current shortfall in the Major Donors team.

Legacy Income / Notifications

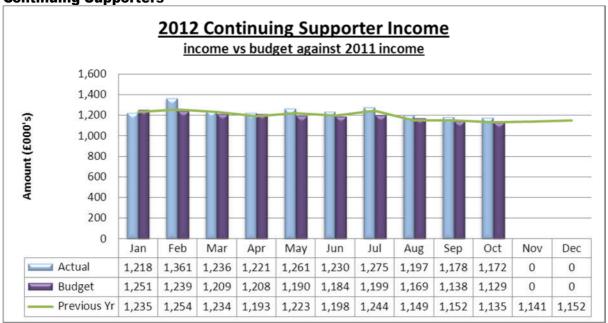

Currently legacy income is £2,104k, £364k up on budget. This represents 10.7% of total income year to date, normally around 10%. The forecast for the year is up on budget by £300k to £2.4m.

PSC12-30 22nd Nov 2012

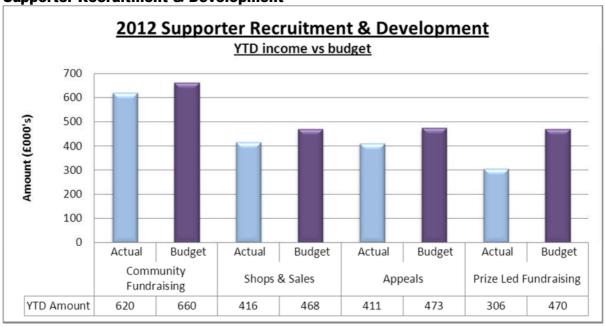

Continuing supporter income is currently up on budget by £433k and has been forecast at £14,654k for the year, which is £378k above budget.

Supporter Recruitment & Development

Community Fundraising is currently £40k down on budget year-to-date and has been forecast down £57k for the year. Expenditure is £67k under budget ytd and has been forecast down £38k for the year. These reductions are primarily in the Team Amnesty line.

Shops & Sales income is £53k off target for the year so far. The shops have forecast income up by £28k whilst the sales line has been forecast down £107k for the year with Boxpark falling below target and the subsequent decision to close it before Christmas.

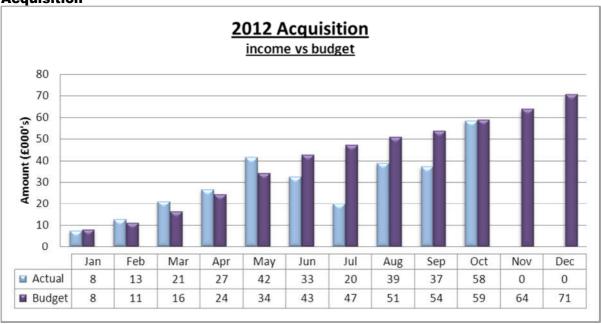

Appeals are £67k under budget year-to-date and forecast to be £19k worse for the year. The current appeal is performing well, but we have removed the income from the appeals update line.

FSC12-30 22nd Nov 2012

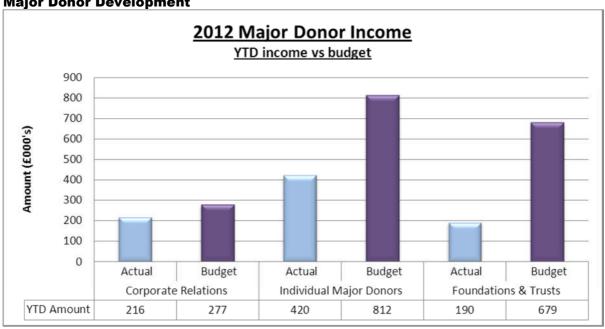

Prize Led Fundraising is significantly under budget for the year so far, by £164k. This is due to the Prize Draw being put on hold - £96k - and further delays to the launch of the Weekly Lottery - £124k. The Spring Raffle underperformed and was forecast down £31k and the Winter Raffle has now been forecast down £46k. Overall, Expenditure is forecast down £112k and income down £291k.

Acquisition

Acquisition income is currently £51k under budget and forecast to be £32k under for the year.

Major Donor Development

Corporate Relations income is £62k under budget so far this year and has been forecast down £100k for the year from £400k to £300k. This is due to some opportunities being identified as high risk for 2012, although the team feel they are not out of reach but may not bear fruit until 2013.

Individual Major Donors is currently still aiming to raise £1m for the first time - up 30% on 2011. The income figures shown above do not include £150k raised for SPB which went directly to AIUSA. We have also had a pledge of £100k from AI India prospects although this may go directly to India -

2 FSC12-30 22nd Nov 2012

meaning a potential £250k raised by the team not being realised on these shores. The team also have a potential £450k in gifts with a planned Bulgari event and decisions due from individuals in the last 2 months of the year

Foundations & Trusts is significantly under budget and has been forecast down £445k for the year to £300k. £245k relates to the unsuccessful 2012 Comic Relief application, which we have resubmitted for 2013.

Fundraising, Brand and Events forecast has been increased by £35k in October. This brings the forecast in line with the current spend to date and known commitments for the rest of the year. No expenditure beyond this is anticipated in 2012.

Other departments Commentary:

Directorate

A forecast overspend of £135k for the year is to cover the anticipated costs of the CAPP consultancy and the increased cost of the Board Ballot.

Campaigns department

The **Campaigns** department is currently £65k overspent against budget and forecast £46k over budget for the year. There are increases in; Media team, up £18k due to the increase costs in media monitoring (VAT is responsible for £12k); Campaigns Programme is forecast to be £45k overspent by the end of the year, however this is covered by restricted grants received in 2011. The Activism team have forecast £46k under budget for the year. This is consists of a £20k overspend on the AGM and £66k of underspends across the team including the decision not to invest in advertising for Write for Rights.

Corporate Services

Finance has spent £27k less than budget year-to-date and forecast to be £16k over for the year. This was for additional support in the team earlier in the year and some additional legal fees.

Irrecoverable VAT in order to comply with the new reporting requirements to the International Secretariat we need to decentralise what, to date, has been a separate expenditure budget for irrecoverable VAT. This represents £109k in Section, mostly relating to campaigns, and £363k in Trust mostly relating to supporter acquisition. The SMT have decided to offset this budget against a savings to be identified budget held by the Corporate Services Director with the balance being credited to campaign director contingency.

IT is £129k under budget year-to-date. There are currently underspends relating to equipment maintenance, telecommunications and consultancy which are anticipated to be spent in the year. This underspend is currently under review with the head of IT and Finance.

The remaining **Direct International Funding** provision of £150k has been released as there will be no direct international funding in 2012.

Secret Policeman's Ball

The Finance Team have closed the books of Amnesty Freestyle at 30th September and the auditors have undertaken an interim audit of the income and expenditures of the SPB during w/c Monday 22nd October. We are forecasting a deficit of £741k for 2012. This only includes royalty income forecast to be received in 2012. All royalty income for 2012 and future years will flow to Amnesty UK Section. We expect expenditure for the project to be £130k more than budgeted - this represents a 5% overspend on budget. The rest of the shortfall is largely made up of lower than hoped for ticket sales

at Radio City Hall. The £20k forecast to be spent to meet this forecast allows for £5k audit fees, £11k evaluation fees and £3k settlement with Control Room.

Salaries are forecast to be £108k worse for the year. The overspend is due to extensions to contracts in Brand & Events and the omission in error from the original budget of 2 retail assistants at Box-park and the new post of street fundraising team leader. We also have additional work being covered in the digital team, which is off-set with a reduction in the team budget, and additional resources in HR as well as a redundancy in Finance. Furthermore the telefundraising team are operating with more hours than was originally budgeted for. A corresponding increase in the amount to be cross charged to UK teams has resulted.
